SAM J. FOUNTAIN DEAD.

Relatives in this city and at College Station were apprised by wire this afternoon of the death of Prof. Sam J. Fountain, which occurred at Cleveland, Ohio, about noon today. Prof. Fountain has been critically ill for some days and his death had been hourly expected. His brother, Mr. Tom Fountain, went to him as soon as his serious illness was announced and remained constantly at his bedside until the end came. Prof. Fountain was at the head of the department of architectural engineering at the A. & M. College, and in his death the college loses one of the most valuable members of its faculty. Funeral arrangements had not been announced at the hour of going to press. A more extended sketch of Prof. Fountain's life and work will appear later.

Fresh honey from Carl Wipprecht's Apiary can be gotten at Hardy Newton's Reid Bros. Wilson & Astin Sanders Bros.

WAR IN EUROPE ADVANCES PRICES

But This Community is Protected by the Sale of Mir-A-Co, Which is a Miraculous Healer, and the Price Remains the Same.

While the wars in Europe have advanced the prices on almost all household necessities, including drugs, etc., the people of this community need not worry over doctors' bills and drug bills if they will only use Mir-A-Co, nature's own remedy, which will do all we claim for it, or money refunded, and the price will remain the same at all times, which is 50c per bottle. Rheumatism, indigestion, stomach troubles, kidney diseases and nearly all ailments common to humanity fall before the onslaught of a charge made by Mir-A-Co. With a bottle of this wonderful miracle worker in your home, think how often you can save a doctor bill and the number of times it is absolutely imperative to have a remedy right now, as for instance a severe burn, sprain, cut, bruise, colic, cramps and many other ailments which need instant attention and may be relieved by the proper use of Mir-A-Co. Every bottle sold under a positive guarantee and if it does not do the work the druggist will refund your money. Also just think of the small amount of money invested—50 cents a bottle—and you may have this miracle worker in your home ready for instant use, and there need be no delay of phoning or sending for medical aid and afterwards for drugs before the sufferer may be relieved, to say nothing of the extra expense saved. Ask your neighbors what they think of Mir-A-Co. It has its strongest friends among those who have given it a fair and impartial trial, and especially in the case of those who suffered for years with what appeared to be incurable diseases and after giving up

hope for relief were saved by Mir-A-Co. A Few of the Many Diseases It Will Cure.

Below we give a few of the many diseases which have been cured by this great mineral water prepared by nature and free from the poisonous adulterants so often found in patent medicines. If afflicted with any of the following diseases give Mir-A-Co a trial and be convinced:

Kidney and urinary troubles, rheumatism, dyspepsia, indigestion, catarrh, chills and fever, neuralgia, tonsillitis, hay fever, nervousness, sore throat from colds or other causes, inflammation, boils, pimples, eczema, sprains, bruises, scald burns, cuts, poison oak or ivy, ulcers and all skin diseases.

Only 50 cents a bottle at all druggists. If it does not do the work return the bottle and get the money back.—Adv.

THE TENNIS TOURNEY.

Dr. Sims and Bernard Stewart were eliminated from the singles tournament yesterday, when the former was defeated in the third set of their match by Noah Cole, 7-5, and the latter was defeated by M. Bullock in the third set of their match, 6-1. These two matches were begun several days ago, but were called on account of darkness, when the score stood one set each. The final scores of the two matches are as follows: Cole vs. Sims, 9-11, 6-3, 7-5; Bullock vs. Stewart, 4-6, 8-6, 6-1.

In the third set of the Cole-Sims match both contestants played brilliant tennis. Dr. Sims leading Cole at one time 4-2 in games, but Cole pulled out of the hole and finally won out.

In the Bullock-Stewart match the play was not so close as was expected, Stewart seeming to be off form considerably, while Bullock played a brilliant game.

These matches closed the first round of the tournament. The drawing for opponents in the second round was held yesterday, and resulted as follows:

Gordon vs. Thomas.
Bullock vs. Cole.

CITY WILL INSTALL ORNAMENTAL POLES

Chief Clerk Reports Increased Water Supply—Final Settlement of Pavement to Be Made.

The regular monthly city council meeting was held in the council chamber last night, with the following officials present: Mayor Harris, Aldermen Vick, Daly and Haswell, Engineer Adams, Secretary Crenshaw, Chief Clerk Bittle and Electrician Smith.

A committee from Chemical Company No. 2 of the Bryan fire department appeared before the council and asked that they be given the \$300 which the council had allowed them on the purchase of their auto chemical truck. The council agreed to grant this request as soon as the money was signed for by the president and treasurer of the company.

W. R. Fairman appeared before the council and asked a lower rate on power than the 7 cents for his picture shows, a rate which he is now paying. The city electrician reported to the council that the rate was as low now as the city could grant without losing money. The council then decided that they would agree to Mr. Fairman's request if Mr. Lawler would grant the city a lower rate on power. The matter was then deferred to a later meeting, as Mr. Lawler was not present.

A motion was made and carried that the city dispose of "Hetty," the old gray mule, one of the oldest of the city's employees, as the mule is so aged she is almost useless for work.

After a very lengthy discussion a motion was made and carried that the mayor appoint a committee to purchase the ornamental light poles for Main street, so they could be installed on Main street before the fall of the year. This move was made as the council decided very little aid was to be expected from most of the merchants of the city in their first proposition that if the merchants would pay for the poles the city would install them and pay for their lighting.

The report of the chief clerk of the municipal plant for the month of July was read. In this report Mr. Bittle compared the receipts of the water department of July, 1913, and July, 1914, and in this comparison it was found that the receipts for the department for July, 1914, were larger than they were for July, 1913, and the water used in July, 1913, was almost a million gallons more than that used in July, 1914. By this comparison Mr. Bittle proved to the city the good that the newly installed water meters were doing, as a large number have been installed in the last year, and consumers who were once charged a flat rate for water are now charged by the thousand gallons.

A motion was made and carried that the city engineer notify Mr. Proudfoot that as soon as he had repaired certain places in the paving on Main street, he would be forwarded the \$5-

Per Capita of \$8 Each—More Schools and Better Paid Teachers Is Slogan.

[By Associated Press]

Austin, Tex., Aug. 15.—The 1,100,000 school children of Texas will participate in an appropriation of \$8,800,000 for the fiscal year beginning September 1, next. This is a per capita of \$8, or \$2,000,000 above any previous appropriation.

This sum does not include money set aside for Texas institutions of higher learning. More schools and better paid teachers is the interpretation of school board officials put on the enlarged apportionment.

THE FIRST STATE BANK AND TRUST CO.

BRYAN, TEXAS.

SOLICITS YOUR BANKING BUSINESS

The non-interest bearing and unsecured deposits of this bank are protected by the State bank guaranty fund.

To supply the demand of safety deposit boxes this bank has purchased and had placed in its vault another section of these boxes, which we offer to you at a very small rental.

We have two sizes, 50c and \$1.00 per year. If you haven't one already, come in and let us show you how convenient they are and how you can protect your valuable papers, such as insurance policies, deeds, notes and receipts.

Every farmer should have one of these boxes. You are taking too much risk to keep your valuable papers at home in your trunk or around the house in some other place. A fire comes when you least expect it. It is your duty to take advantage of all the protection you can get.

Deposit your money in this bank and rent one of these safety boxes for your papers. We invite you to come in and talk it over with us.
